

## Cardio-Pulmonary Update 2012

### Learning Objectives

#### **Traditional Medicine:**

- To review, discuss, and assess recent advances in cardiology and respiratory medicine
- To explore the clinical interface between Cardiology and Respiratory Medicine
- Review the heart/lung interface in clinical medicine through case discussions, workshops, and journal clubs
- Explore ways to integrate new learning into clinical practice

#### **Practice Management – Medico-legal:**

- To learn how to 'bullet-proof' your medical practice from a medico-legal perspective
