

## **Diabetes / Endocrinology Update 2011**

### **Eastern European River Cruise**

**September 27 – October 11, 2011**

**Upon completion of these interactive session, delegates will be able to:**

- Diagnose and manage pre-diabetes
  - Appreciate the evidence base for controversies in type 2 diabetes management
  - Match their type 2 diabetes patient profiles with available therapies
- 
- Our CME/CPD programs appeal to generalist physicians and to subspecialists with interest in the topic areas.
  - Our programs are presented with attention to adult learning and knowledge translation paradigms
